Navigation icons: back, menu, home, search

Standard Memory
Recover from memory and add to memory

MR M+

Basic Arithmetic Operations

× ÷
+ -

± Sign change
= Equal operator for basic operations and power function

Scientific Functions

Factorial, square root, trigonometric functions (degrees/radians), pi, power, natural logarithm and exponential.

!	√	sin	cos	tan
π	x ⁿ	ln	e ^x	
size				

Custom numeric algorithms optimized for embedded platforms guarantee performance even at higher precisions.

Shows the number of characters of the number in the display

Able to do calculations near to 900 decimal places.

Moving the cursor

<	<<	F
>	>>	B

F	to front
B	to back
<	one position to the left
<<	ten positions to the left
>	one position to the right
>>	ten positions to the right

Menus

Radians / Degrees, Precision, Memory, Rounding, Save to SD, Get from SD
